

Edwina Dyson – Board Member

Living in Didsbury for 25 years I relish its vibrant community spirit. I have been deeply committed to DAF since its inception. As a committee member my particular focus has been on the involvement of schools and young people: my area of professional expertise. I have been privileged to work with many talented innovative people who have contributed generously to the impressive achievements of DAF and its huge popularity. I wish to offer my experience, creative energy and organisational skills to the Board of Trustees and to the continuing success of the festival.
